

FEATURE LIST OF MIND CMS 2.0:-

Feature List	MIND CMS 2.0
EASE OF USE FOR CONTENT EDITORS	
Feature	Notes
Rich Text Editor (RTE)	RTEs with Microsoft Word-like icons, support for Win/IE and Mozilla/Firefox platforms; WYSIWYG editors are highly configurable.
Intuitive UI	File management functions are displayed in a directory-tree format that makes finding pages and files easy for content editors.
Spell Checker	Spellchecker is built into the Rich Text Editor
Backend Editing	Users can edit the content pages from backend.
Preview Content	Content can be previewed online before publishing.
Minimal Training Required	Editing content is as easy as editing in Microsoft Word.
Easy Configuration	Common variables like Page Limit, Date Format, Email IDs can be easily configurable from the back-end section
Internal Search Engine	Editors can perform a search for a key phrase within a section of the site. The results will return all the content elements with the phrase included.
EASE OF USE FOR SITE ADMINISTRATORS	
Feature	Notes
Manage Backend Users / Groups	Limit what backend users can see and do in one centralized location
TEMPLATES	
Feature	Notes
CSS Styled Content	All aspects of the core functionality can be styled on the website.
Menu Navigation	Submenus can be created based on the page-tree as pages are added and subtracted. These can be styled entirely through CSS. Our system supports two level of menu navigation.
SECURITY	
Feature	Notes
Temporary Preview	Temporary link will be generated so that it will be reviewed online from anywhere.
User Privileges	An administrator can grant control to content editors as needed.

User Management	Administrators can disable user accounts or change their passwords at any time.
